Raga svara

Raga Svara

PROJECT DETAILS

CLIENT R K University Corp.
LOCATION Rajkot Gujarat
AREA 9 acres
YEAR 2017

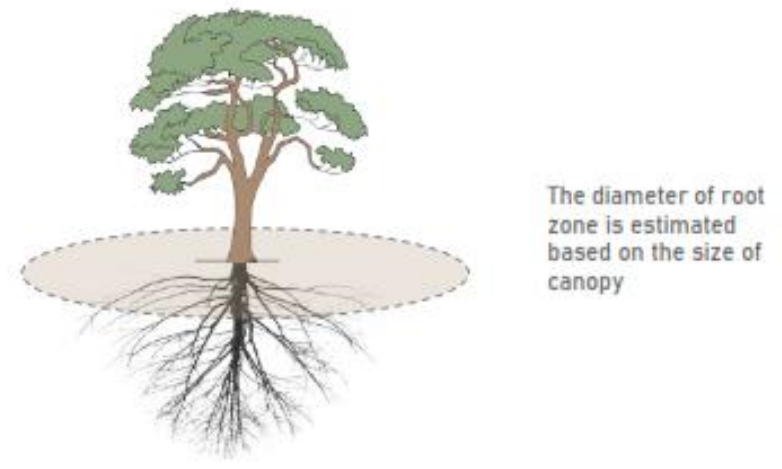

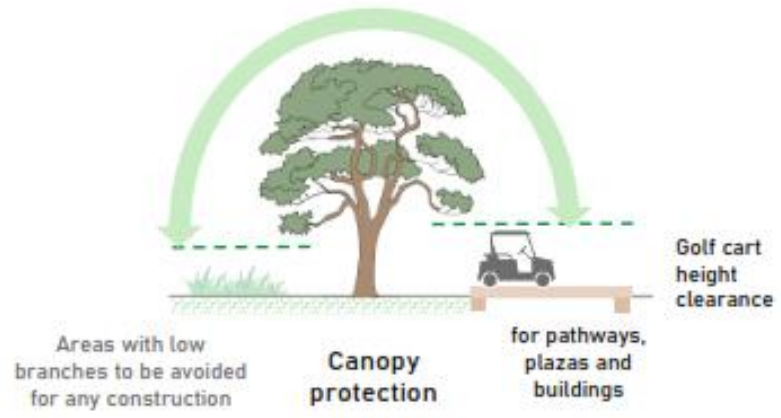

ABOUT

A naturopathy based resort coming up at Rajkot. The site was an existing amba-wadi that was integrated into the masterplan design.

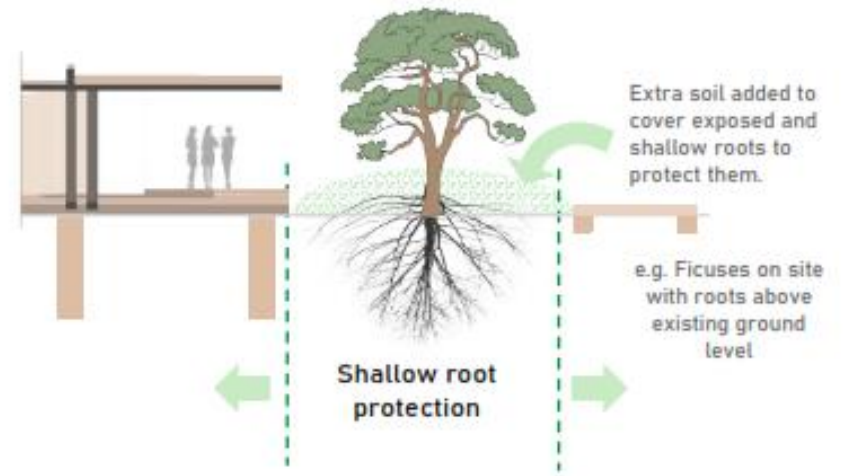

SCOPE OF WORK

Earthscapes prepared the Concept Design, Schematic Design, Design Development, Tender drawings and Specifications along with periodic site visits during installation stages.

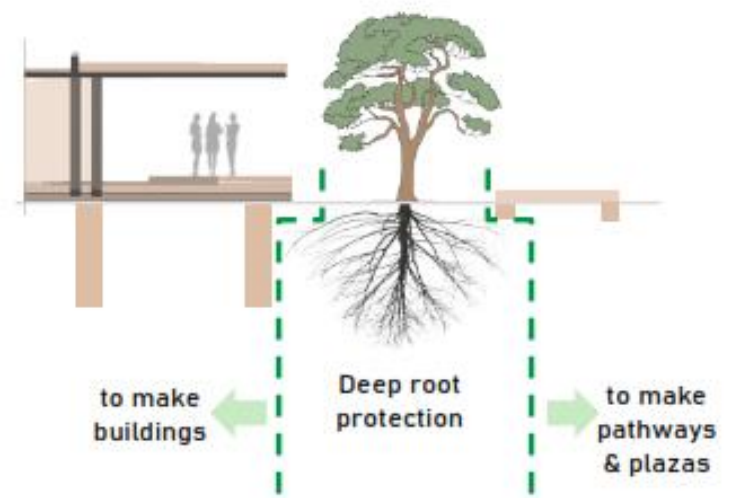

No Damage to canopy

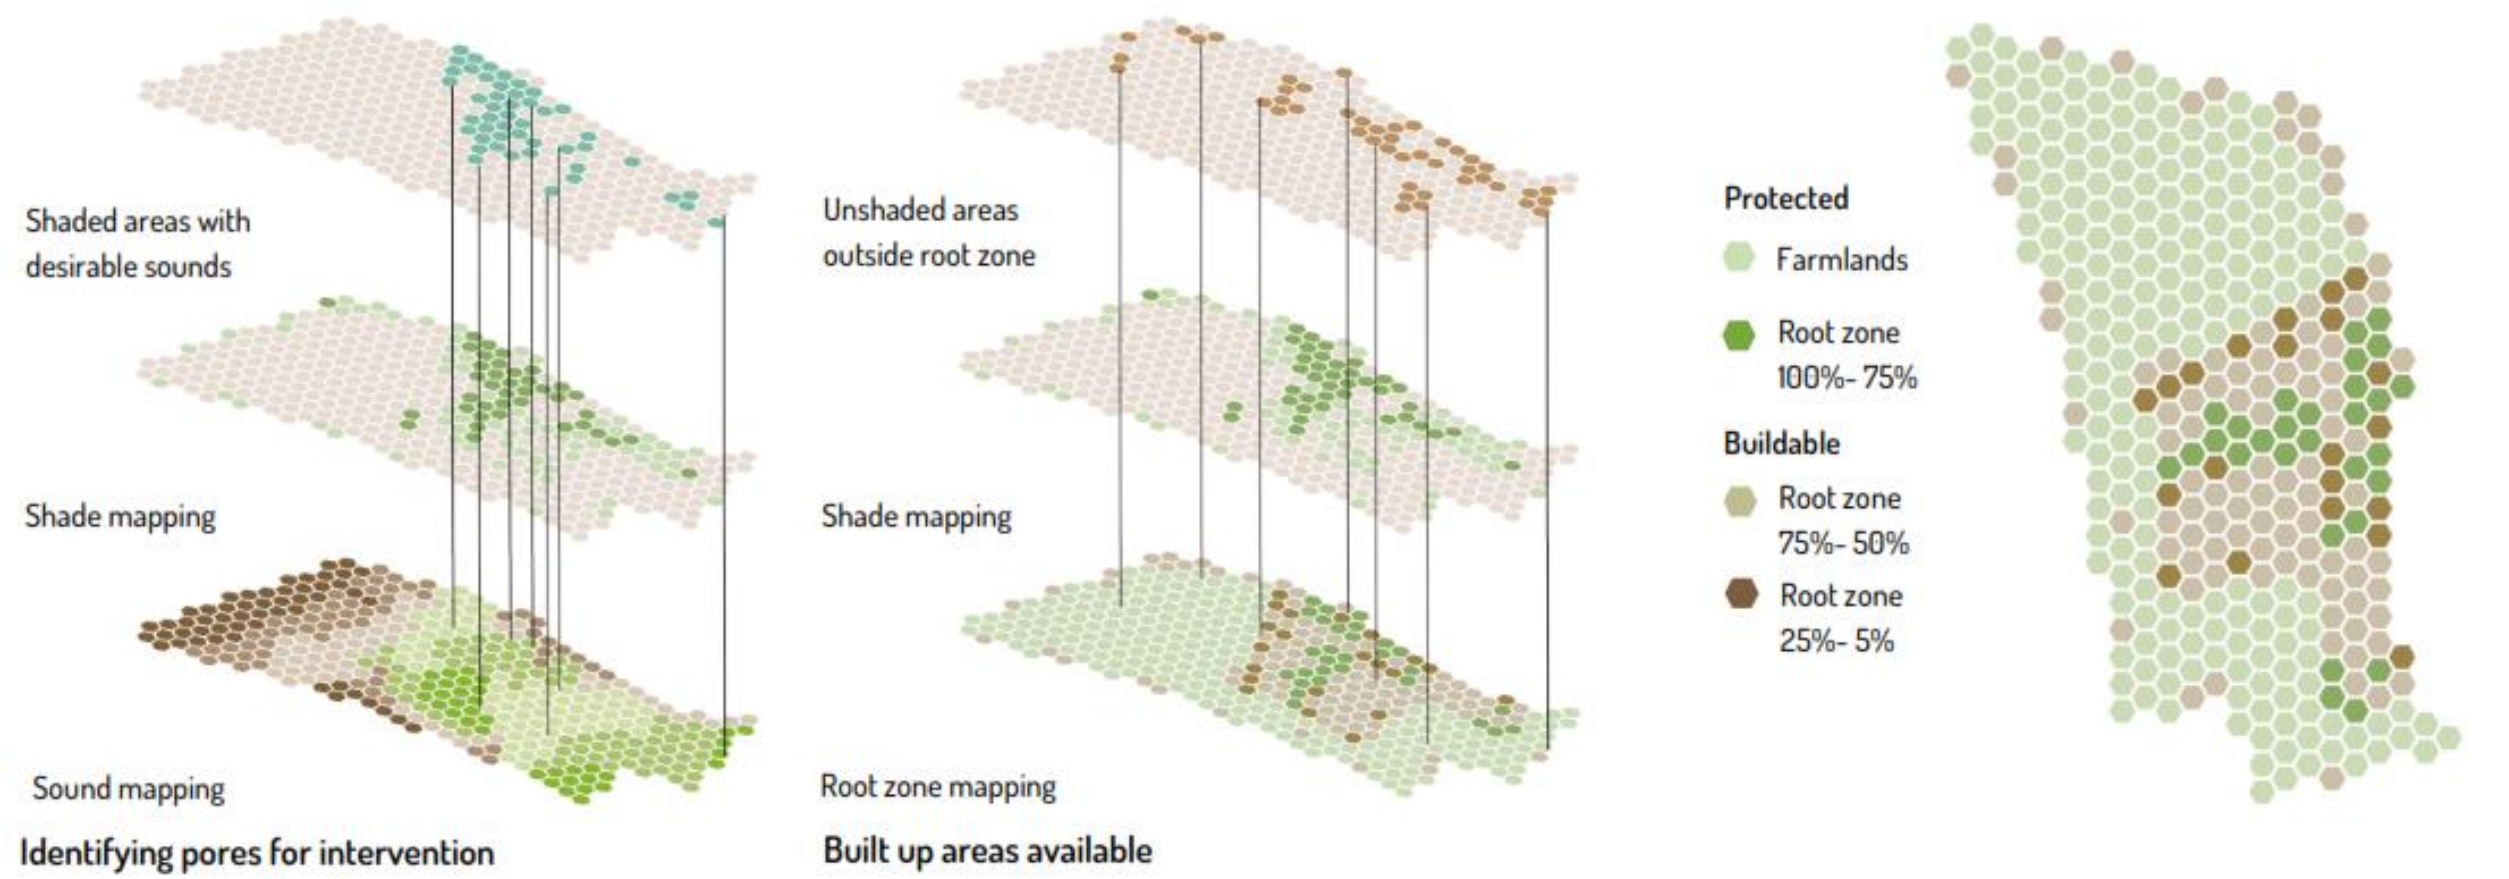

No Damage to canopy

Existing buildings to be demolished & rebuilt.

All trees were mapped for their location, species, height, canopy diameter and girth. Based on this, their critical root zone area was estimated

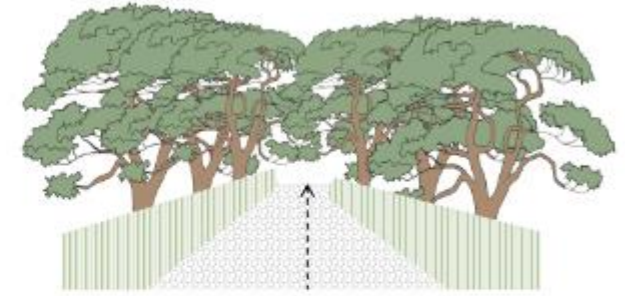

Adjustment in pathway and plaza profile based on tree roots spread and location

Character of pores for human interaction

Identifying spaces as per size and possible activities that can be conducted

Of the 519 trees, most were part of the mango and fruit orchards. There was also a beautiful coconut grove, couple of large banyan / vad trees near road edge and a few large size trees of jungle jalebi near framlands.

Pratiti Parks

Pratiti Parks

IIM Udaipur

Proposed Waterbodies
Catchment Analysis

PROJECT DETAILS

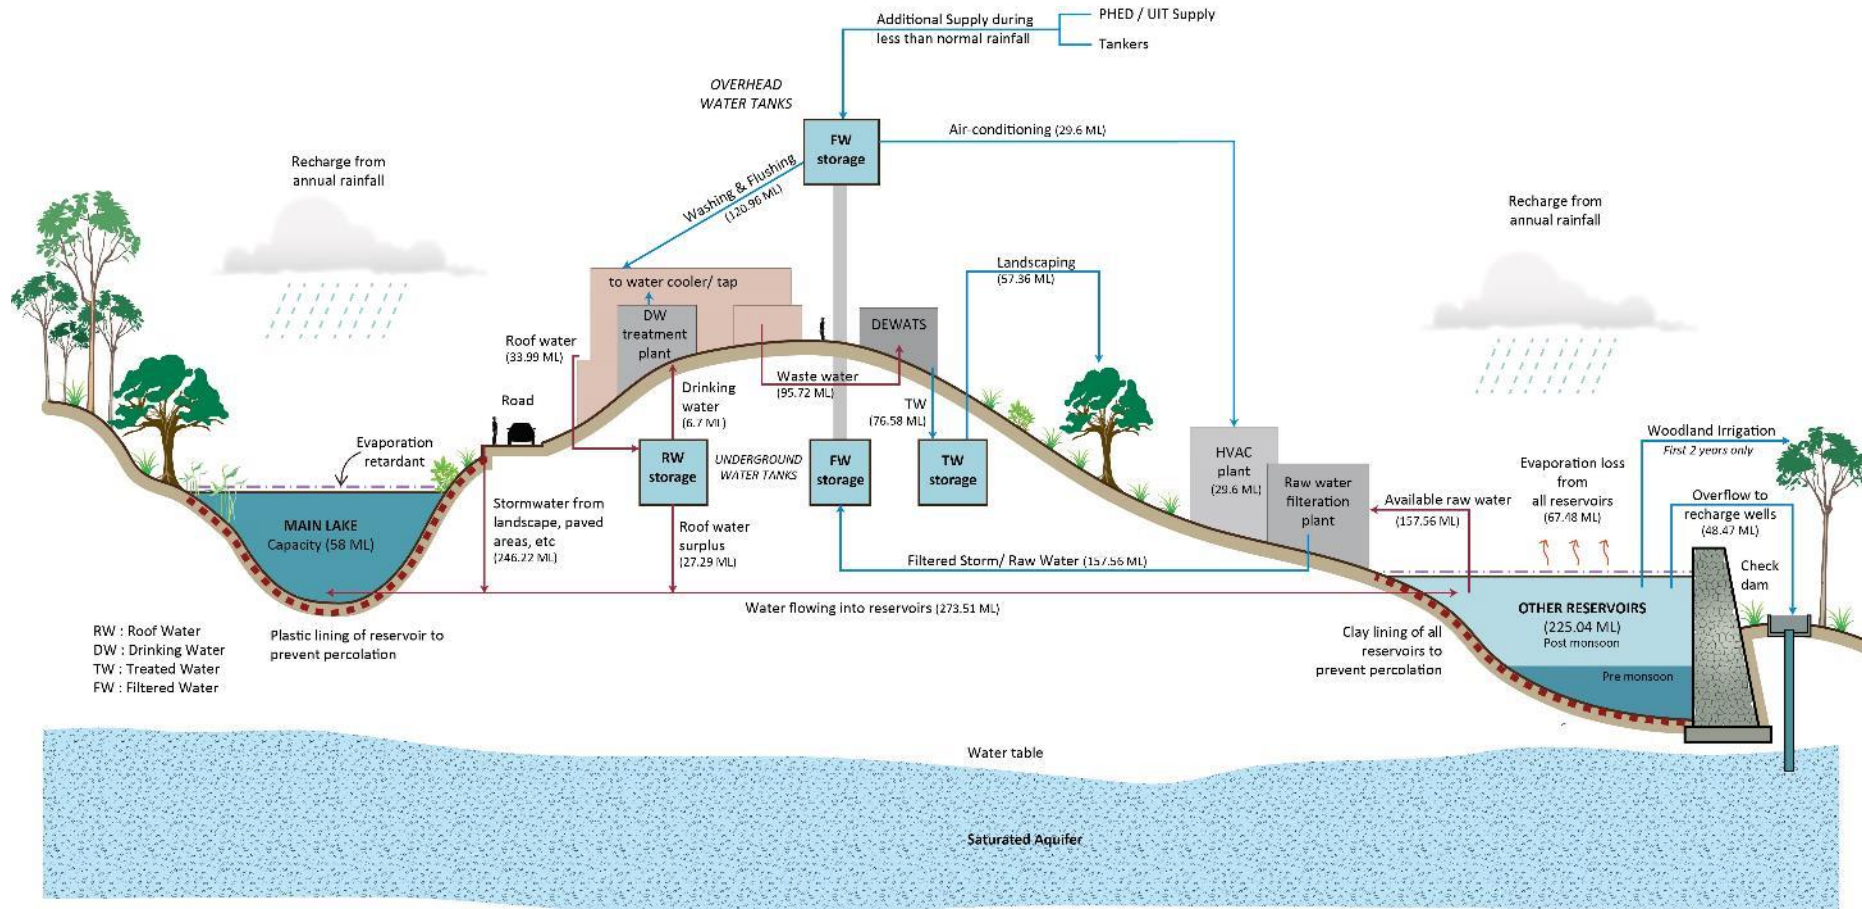

CLIENT	IIM Udaipur
LOCATION	Udaipur, India
AREA	400 acres
YEAR	2011

ABOUT

The Indian Institute of Management at Udaipur was established a year ago, and is one of the prime management institutes in the country.

Design of its main campus was selected from a competition, and is lead by Vastu-Shilpa Consultants, who also designed IIM Bangalore. IIM wishes to create a sustainable campus that will reflect the local landscape.

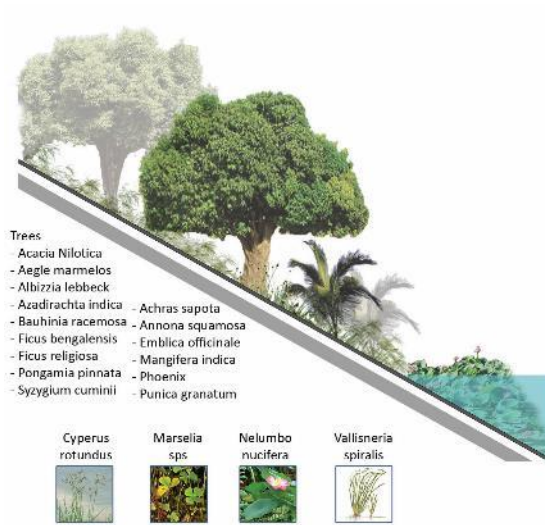

The concept of landscape for an educational campus is akin to that for a temple: a temple of learning that fosters creativity, encourages search for knowledge through introspection and discussion, accepts steward-ship of nature and culture, and becomes a womb of future thoughts.

SCOPE OF WORK

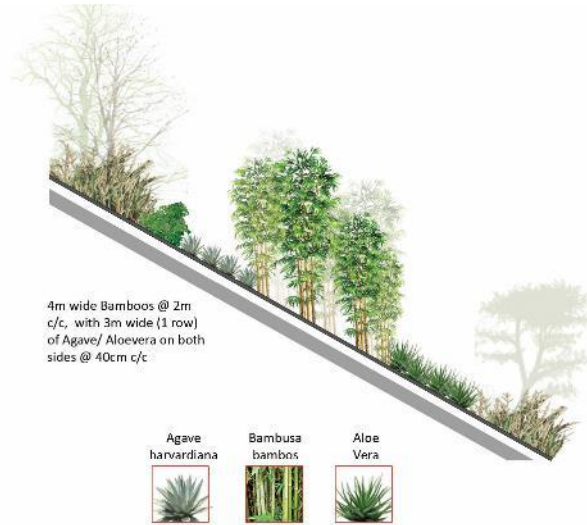

Earthscapes prepared the Concept Design, Schematic Design, Design Development, Tender drawings and Specifications along with periodic site visits during installation stages.

SCOPE OF WORK

Earthscapes prepared the Concept Design, Schematic Design, Design Development, Tender drawings and Specifications along with periodic site visits during installation stages

Shairu Gems HQ

Shairu Gems HQ

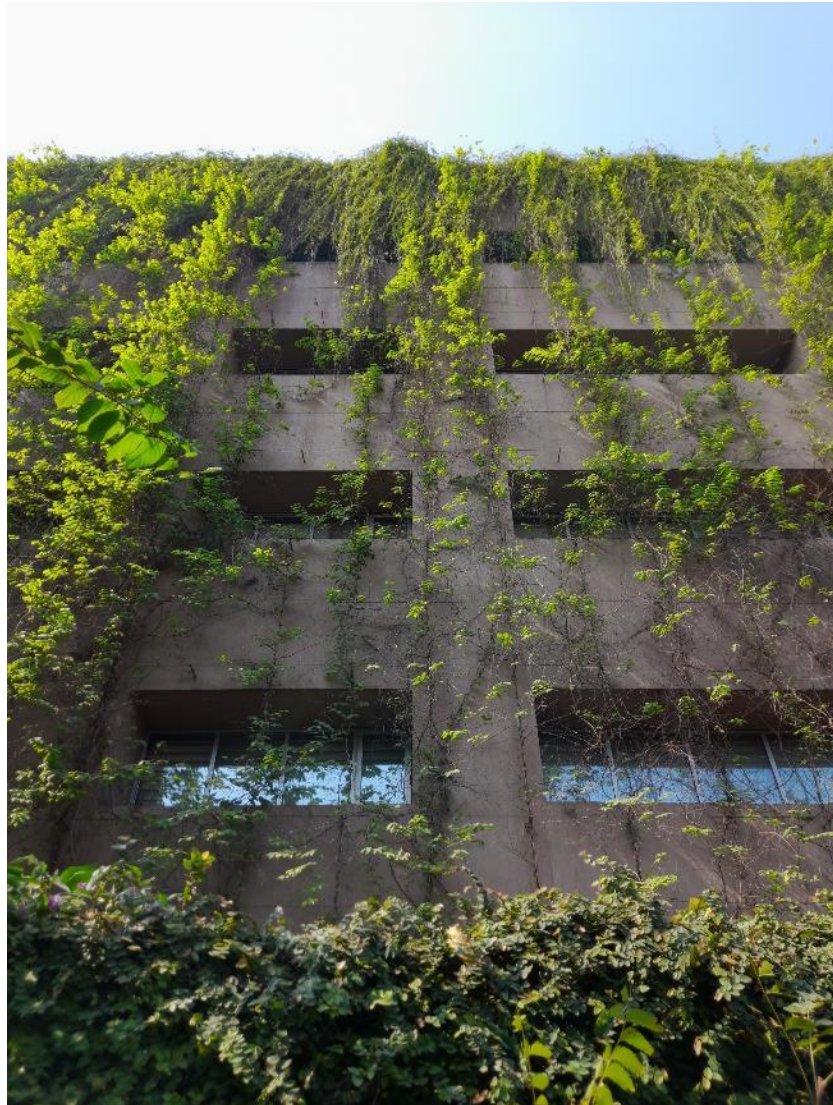

PROJECT DETAILS

CLIENT	Shairu Gems LTD
LOCATION	Surat, Gujarat
AREA	2500 sqm
YEAR	2011

ABOUT

The landscape of Shairu Gems factory, Surat is an attempt at creating natural spaces where no space exists. The geometry of the landscape takes inspiration from the gems polishing activity of the factory and is manifested through natural stone patterns in different kinds of finishes. The landscape rises from the ground and climbs onto the building facade, creating an entire aesthetic display and ecosystem on the vertical walls and higher levels where space is available.

Shairu Gems HQ

SCOPE OF WORK

Earthscapes prepared the Concept Design, Schematic Design, Design Development, Tender drawings and Specifications along with periodic site visits during installation stages

LTM Lemon Technomist

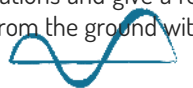

PROJECT DETAILS

CLIENT Lemon technomist P Ltd.
LOCATION Surat, India
AREA 8000 sqm
YEAR 2011

ABOUT

The landscape of LTM & LSM Factory, Surat is an attempt at land-art. The client brief was to create a forest as well as demonstrate the cutting edge technologies being developed at the factory cum research unit. The landscape takes inspiration from the client's imaging process of taking a raw material and making an aesthetic art piece from it. The landscape is a series of mounds rising in height as one views them from the entrance. The mounds are clad with natural stone at various locations and give a feeling of arising from the ground with the stone.

LTM Lemon Technomist

The landscape becomes a journey with integrated seating wherein many a small get-togethers, brainstorming sessions and solitary thinking can be realized

SCOPE OF WORK

Earthscapes prepared the Concept Design, Schematic Design, Design Development, Tender drawings and Specifications along with periodic site visits during installation stages.
